03 **Industry Overview and Future Prospects**

Industry Overview and Future Prospects

Short Term

- The global high interest rate environment is gradually withdrawing → Increased infrastructure investment → Steel demand is expected to pick up

Long Term

- Use electric furnace steel blanks to develop low-carbon products → save energy and electricity → reduce carbon emissions → comply with ESG trends

Future Prospect

- Continue to purchase green material sources → increase competitive advantages → expand product market share → Reduce production costs → Sustainable development of enterprises

ESG Planning and Progress

Environment

- Carry out energy-saving and carbon-reduction improvements and updates for energy-consuming equipment
- Integrate product lines within the group to increase synergy

Society

- Support domestic cultural and creative industries
- Promote the professional baseball and basketball in Taiwan
- Cooperate with Taiwan Steel University in industry-university activities

Governance

- Set annual ESG goals to achieve business operations

Thank you for listening
